

How to Use Novus 1 – Plastic Clean & Shine

What is Novus 1 – Plastic Clean & Shine?

Gently cleans all plastics without scratching, leaving a lustrous shine that resists fogging, repels dust, and eliminates static.

- Resists finger marking
- Contains no abrasives or harsh chemicals
- Leaves a smooth, clean, greaseless shine

Step by Step Guide

1. If the surface is extremely dirty, apply NOVUS No. 1 liberally and wipe using long, sweeping strokes. (Do not use pressure at this time or large dirt particles may scratch the plastic).
2. Re-apply NOVUS No. 1. Polish using short, circular strokes with a clean portion of the cloth.
3. When surface is thoroughly clean and uniformly covered, buff to a slippery glaze with a clean portion of the cloth. Surfaces buffed to a high glaze are more resistant to dust and future scratching.
4. Reapply NOVUS No. 1 regularly to maintain the antistatic, smudge and scratch resistant properties.
