

Perspex Spectrum LED Range

Perspex Spectrum LED: illuminating colour

Perspex Spectrum LED is a specialist acrylic sheet with optimised colour performance created to meet the needs of today's sign market.

Maximum Impact

Perspex Spectrum cast acrylic sheet enables sign makers, specifiers and designers to enjoy the benefits of LEDs and create elegant solutions that are cost and eco-efficient, whilst enhancing intensity and colour.

The right specification

- ❖ Consistency – bold intense colour in daylight and when illuminated
- ❖ Even illumination – excellent diffusing power
- ❖ White light formula – optimised for use with white LEDs
- ❖ Colours – 11 standard colours to choose from
- ❖ Flexibility – designed for LEDs, can also be used with alternative light sources
- ❖ Aesthetics – slim designs with bright even illumination
- ❖ Reliability – Perspex 10 year guarantee

Perspex Spectrum is not only for signs, it is the ideal material for any illuminated application including point of purchase, directional systems, interior designs and architectural pieces.
