

Food Contact Compliance Statement

Date / Rev: 15.04.2011

Product: Techtron HPV PPS Stock Shapes

We hereby provide the following information based on the compliance status of the raw materials used at present by our partner Quadrant Engineering Plastic Products for the manufacture of the stock shapes mentioned above, with respect to their composition, as set out in the regulations that apply in the United States of America (FDA) for plastic materials and articles intended to come into contact with foodstuffs.

- Techtron HPV PPS complies with the compositional requirements of the Food Contact Notification (FCN) No 40 “Polyphenylene Sulfide Polymers – intended to be used as a polymeric component of repeated use food-contact articles” of the American Food and Drug Administrators (FDA) Inventory of Effective Food Contact Substance (FCS) Notifications.

Based on its composition, Techtron HPV PPS may basically be used for the manufacture of articles or components of articles intended for repeated food-contact use with all food types under conditions of use A through H as defined in tables 1 and 2 of the explanation “Definitions of food types and conditions of use for food contact substances” linked to the FCN No 40 mentioned above.
